PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience building scalable, production-ready web applications using React.js, Next.js, Node.js, WordPress, and Supabase. Proven ability to lead frontend teams, optimize application performance, and deliver business-focused solutions. Strong in modern UI architecture, API integration, and Agile collaboration.

CORE SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS, Bootstrap, Shadcn UI, Material UI, Framer Motion, WordPress, Elementor
Backend: Node.js, Express.js, PHP, REST APIs, GraphQL
Databases: Supabase (PostgreSQL), MySQL
DevOps & Tools: Git, GitHub, Vercel, DigitalOcean, Cloudways, Cloudflare, Postman, Jira
Practices: Agile (Scrum, Kanban), Code Reviews, Performance Optimization, Clean Architecture

---

PROFESSIONAL EXPERIENCE

ProCohat Technology Pvt. Ltd.
June 2024 – Present
Full Stack Developer & Frontend Lead

- Led frontend development for scalable WordPress and Next.js applications serving real-world clients.
- Designed performance-optimized React components, reducing page load time and improving user experience.
- Developed reusable UI components and enforced coding standards through regular code reviews.
- Built and integrated REST and GraphQL APIs using Node.js and Express.js.
- Implemented authentication and authorization using Supabase.
- Managed CI/CD workflows via GitHub and deployments on Vercel and cloud hosting platforms.
- Collaborated with designers, backend engineers, and stakeholders to deliver features within Agile sprints.

ProCohat Technology Pvt. Ltd.   April 2022 – June 2024
Full Stack Developer

- Built responsive and mobile-first web applications using React.js, Next.js, and WordPress.
- Developed backend services using Node.js, PHP, and Express.js.
- Designed and optimized Supabase and MySQL databases to improve query performance.
- Integrated third-party APIs and payment gateways.
- Implemented role-based access control (RBAC) and soft-delete logic for data safety.
- Debugged and optimized applications to improve stability and performance.

KEY PROJECTS

iConnect – Enterprise Ticket Management System (Company Project)

Role: Full Stack Developer
Tech Stack: Next.js, React.js, Node.js, Supabase (PostgreSQL), REST APIs, Tailwind CSS
Link: https://iconnect.smsinfolink.com/

- Developed a full-stack ticket management system with real-time updates.
- Implemented RBAC for Admin, Consultant, and User roles.
- Built REST APIs for ticket creation, assignment, updates, and closure.
- Designed efficient database schema with soft-delete (is_delete) logic.
- Created admin dashboards with pagination, search, and filters.
- Integrated email notification system for ticket status changes.

SaayaCare – Subscription-Based Healthcare Platform

Role: Full Stack Developer
Tech Stack: Next.js, Node.js, Razorpay API, Supabase (PostgreSQL), Tailwind CSS
Link: https://www.saayacare.com/

- Built a subscription-based healthcare platform with secure payment integration.
- Designed dynamic subscription forms with client and server-side validation.
- Integrated Razorpay payment gateway for handling subscriptions.
- Optimized API response time and form submission performance.
- Ensured secure storage and handling of sensitive healthcare data.

EDUCATION

Bachelor of Science in Computer Science
Rashtrasant Tukadoji Maharaj Nagpur University (2015 – 2019)
Dr. Babasaheb Ambedkar College, Nagpur

ADDITIONAL HIGHLIGHTS

- Experience leading frontend teams and mentoring junior developers.
- Strong focus on performance optimization and scalable UI architecture.
- Comfortable working in Agile environments with cross-functional teams.
- Actively learning advanced frontend patterns and state management (Context API, Redux fundamentals).
